## **the riddle of manis pdf**

The adze (/ ˈ ɒ d z /; alternative spelling: adz) is a cutting tool shaped somewhat like an axe that dates back to the stone age. It can be any tool with a sharp cutting edge. Adzes are used for smoothing or carving wood in hand woodworking, similar to an axe but with the cutting edge perpendicular to the handle.

## **Adze - Wikipedia**

The axe has two primary components: the axe head, and the haft. The axe head is typically bounded by the bit (or blade) at one end, and the poll (or butt) at the other, though some designs feature two bits opposite each other.
