One of the most common forms of sexual violence around the world is that which is perpetrated by an intimate partner, leading to the conclusion that one of the most important risk factors for people in terms of their vulnerability to sexual assault is being married or cohabiting with a partner.

Factors associated with being a victim of sexual violence

When more women work, economies grow. If women's paid employment rates were raised to the same level as men's, the United States' gross domestic product would be an estimated 9 per cent higher, the Euro-zone would climb by 13 per cent, and Japan's would be boosted by 16 per cent.
